About ACCSP

The Atlantic Coastal Cooperative Statistics Program (ACCSP) is a cooperative state-federal program to design, implement, and conduct marine fisheries statistics data collection programs and to integrate those data into a single data management system that will meet the needs of fishery managers, scientists and fishermen.

About SAFIS

The Standard Atlantic Fisheries Information System (SAFIS) is a real-time, web-based reporting system for catch and effort landings on the Atlantic coast. SAFIS is comprised of four applications:

1. **Electronic Dealer Reports (eDR)** – collects dealers landings (including condition and price).
2. **Electronic Trip Reports (eTRIPS)** – collects catch data from fishers (including gears used, fishing areas, and catch disposition).
3. **Recreational Logbooks (eREC)** – collects data from recreational anglers.
4. **SAFIS Management System (SMS)** – provides administrative tools to state and federal SAFIS administrators for management.

It is important to recognize that while these applications stand alone, all are kept within the same database and therefore can be linked together.

Background on SAFIS

The ACCSP Program Partners created SAFIS to meet the increasing need for real-time commercial landings data. Through a cooperative, consensus driven process, ACCSP developed a set of data collection standards. All program partners have agreed to these standards and have been adopted for almost all aspects of fisheries dependant data collection. A process has been put into place to fund research and implementation of these standards in the partner agencies.

Since its creation in 2003, SAFIS has been used to report data for the majority of states in the Northeast. The state of Rhode Island first adopted SAFIS in February 2003. SAFIS was then adopted by Maryland for landings data and quota monitoring of important finfish and shellfish species. NOAA Fisheries Northeast Region launched SAFIS for federally permitted seafood dealers in May 2004. Connecticut, Massachusetts, New Hampshire, New Jersey and Maine now use SAFIS. ACCSP continues to work with New York and Delaware to accommodate specific industry needs.

- SAFIS provides up-to-date information on species caught and their impact on fisheries and quotas
- SAFIS allows confidential access to data-of-record by fisherman and dealers
- SAFIS fulfills State and Federal reporting requirements through online data entry and reporting
- SAFIS management tools facilitate maintenance of partner-owned data such as participants, online permits, and vessels.

SAFIS management tools facilitate maintenance of partner-owned data such as participants, automated audits and vessels.

SAFIS HELP Desk Contacts

As you review this handbook you may have some questions. We advise you to please direct questions to the state or federal agency that issued your permits. Federally permitted dealers that also hold state permits should contact their Federal Contact or the SAFIS Administrator. These individuals will have the most up to date and personalized information to best answer your questions.

Federal Contacts:

SAFIS Administrator:	(978) 281-9212
Portland, Maine:	(207) 780-3322
Gloucester, Massachusetts:	(978) 281-9363
New Bedford, Massachusetts:	(508) 999-2452
Chatham, Massachusetts:	(508) 945-5961
Point Judith, Rhode Island:	(401) 783-7797
East Hampton, New York:	(631) 324-3569
Patchogue, New York:	(631) 475-6988
Toms River, New Jersey:	(732) 349-3533
Cape May, New Jersey:	(609) 884-2113
Hampton, Virginia:	(757) 723-3369

eDR Application

Welcome! The SAFIS Electronic Dealer Report (eDR) application is equipped with the tools you need to enter in all aspects of a landings report.

This is the main page of the eDR application. On the right side, up-to-date messages from your agency administrator (circled in Screenshot 1: *SAFIS eDR Main* Page) will appear. This message may contain notes on specific fisheries, or tips on how to make eDR work better for you. We recommend that you read these messages frequently as they may change on a daily basis.

The main menu to the left will appear on any page and allow you to navigate in a flexible and friendly interface. A brief review of the seven main menu items appears on the following page. This user's manual is set up to follow this menu.

Screenshot 1: *SAFIS eDR Main* Page

Please note that this graphic is from the testing site. This publication was made using the test site and a testing name for MA DEALER. With your own screen you will see your own information.

The Main Menu

1. ***Dealer Reports:*** Create a new dealer report or update and review your previously saved reports.

2. ***Negative Reports*:** Create a negative report for a single day or an entire range of days. Negative reports may be entered for the future if you have a planned off sea day.

3. ***Incomplete Reports***: View reports with information missing from the past 90 days. A report is incomplete if it is missing price, dollars, or in some cases a federal vessel trip report number. This *Main Menu* option will keep count of any incomplete records from the past 90 days. You are able to view all incomplete reports once you are in the Incomplete Reports options.

4. ***Favorites:*** Create a list of the species and gears you will be entering on a frequent basis.

We highly suggest setting up your list of favorites prior to entering new reports.

Favorites will be easily accessible when you create a new report. Frequent Fishers are created automatically when you enter reports. Favorite species and gears must be manually created.

Screenshot 2: ***The Main Menu***

5. ***Price Board:*** The price board will generate automated pricing for any species. The price board is automatically populated with your species favorites. However, you may also enter additional species if needed. You are responsible for entering the start date and the price of the landings. The end date will be automatically generated two weeks after the start date. Once complete the price board will automatically fill in the price for any landing entered for that species during the start and end dates.

6. ***Dealer Information:*** Review your personal information. To gain the most up-to-date news from your partner we suggest you maintain this to the best of your knowledge by contacting your state or federal partner.

7. *Reports:* Generate all reports. The parameters provided will allow flexibility in creating a variety of reports. An interactive report will provide the ability to generate more tailored reports.

This manual will provide a step by step instruction of creating dealer reports. If you are unable to find the answer you are looking for please contact your local SAFIS Help Desk Contact. These phone numbers are listed on the following page.

A. Dealer Reports

Create a new dealer report and review your archive of saved reports by selecting DEALER REPORTS from the main menu. We recommend entering the reports every day so you can stay up to date and quotas may be better monitored.

1. ***How to Create a New Dealer Report*:** From the *Main Menu*, click on the Dealer Reports bullet. From this screen you will click on the turqiouse button 'Create NEW Dealer Report' (Screenshot 3: *Create NEW Dealer Report* Button).

Before entering new report we highly recommend that you set up and/or review your Favorites. All favorites from the previous eDR system will be transferred over to this system. But, please take the time to review before entering a new report. It will make the entry much easier.

Screenshot 3: *Create NEW Dealer Report* Button

The Dealer Report page contains all the fields necessary to generate a dealer report.
Fields in yellow are required (circled in Screenshot 4: *Create a New Dealer Report* Page).

Note that upon entry to this page a list of active frequent fishers appears. (Note: seasonal fishers can be temporarily removed from this list by updating the frequent fisher status on the FAVORITES page to INACTIVE). By selecting a frequent fisher (circled in Screenshot 4: *Create a New Dealer Report* Page) certain fields will automatically be populated.

If you do not select a fisher from the list of frequent fishers, press the SELECT FROM ALL FISHERS link. A list of all fishers available will appear.

If you have created frequent species on the FAVORITES page, those species will automatically appear in the landings. Additionally, if those species have a price board entry, the price will automatically be entered.

To enter a new landing, select a species from the species tree on the left.

Screenshot 4: *Create NEW Dealer Report* Page

Please note that this graphic is from the testing site. This publication was made using the test site and a testing name for MA DEALER. With your own screen you will see your own information.

Fields you must enter for a completed report:

1. **Fisher:** A scroll down list will let you select from your favorites. A link SELECT ALL FISHERS will allow you to search on all fishers by name and/or license number.

2. **Fisher License***: Once a fisher has been selected, their license will automatically appear. By clicking on the SELECT ALL FISHER link, a search can be done on license number

3. **Port:** A scroll down list will let you select from your favorite ports. The link SELECT FROM ALL PORTS will provide a list of all ports and may be searched by port name or state.

4. **Date Landed:** (*format MM/DD/YYYY)* A calendar prompt is available. Double click on this field to populate with today's date.

5. **Time Landed:** (*format [HH.24])*

6. **Date Purchased:** (*format MM/DD/YYYY*) A calendar prompt is available. Double click on this field to populate with today's date.

7. **Vessel Name:** A scroll down list will let you select from your favorites. The link SELECT FROM ALL VESSELS will allow you to search on a vessel by name or license number.

8. **USCG / St. Reg. #:** Once a vessel has been selected, the USCG/State Registration number will automatically appear. Use the SELECT FROM ALL VESSELS link to search by USCG or State Registration number.

9. **Federal Permit #:** Once a vessel has been selected, the Federal permit # will automatically appear. Use the SELECT FROM ALL VESSELS link to search by Federal Permit Number.

10. **VTR** *(Fed dealer only)* #: The vessel trip number is required for federal dealers.

Screenshot 5: ***Species Tree* Window**

11. **Species:** If frequent species exist (from the favorite page), they will be loaded here. To add additional species to a dealer report, select a species from the tree on the left (See Screenshot 5: Species Tree). The species tree contains all species available to your partner. The list is maintained by your SAFIS partner administrator. By selecting a species (click on + sign), you will be able to add a new landing. In addition to the species, the landing row contains:
    - **Disposition** – a pull down list will provide all dispositions.
    - **Gear** – a pull down list will provide favorite gears, or select all gears for full list.
    - **Quantity -** the reported quantity landed for species.
    - **Price** – the price per unit for species.

- **Dollars –** total dollars (price * quantity) for species.

Once you have completed the form, click on SAVE (F10). (Screenshot 6: *SAVE (F10), Cancel or Delete ALL Landings for this eDR* Buttons).

Screenshot 6: *SAVE (F10), Cancel or Delete ALL Landings for this eDR Buttons*

What happens when a *Dealer Report* is saved? A confirmation page will appear once a dealer report has been saved (Screenshot 7: *eDR Confirmation* Page). If you are missing any information an error message at the top of the page will appear prompting you to make additional corrections. The dealer report confirmation number is circled in Screenshot 6: *eDR Confirmation* Page.

Screenshot 7: *eDR Confirmation* Page

Please note that this graphic is from the testing site. This publication was made using the test site and a testing name for MA DEALER. With your own screen you will see your own information.

2. ***Review Dealer Reports Option**:* Once you have completed a landings report you will easily be able to search for any of them from the *Dealer Reports* Page. This review option is available directly from the *Dealer Reports* Page immediately under the turquoise *Create NEW Dealer Report* Button. You will be able to search for a report by entering in fisher, vessel or dealer report number. Or you can search by reviewing all of the reports from the Last 14 Days, Last 30 Days, Last 90 Days, Last Year, All or a Customized Data Window. Enter a search and press the Go Button to search all reports. If you enter a search for a specific fisher, vessel or dealer report # the information you are searching for will appear in red as illustrated below in Screenshot 8: *Reviewing and Searching Your Dealer Reports* Window.

Screenshot 8: *Reviewing and Searching Your Dealer Reports* Window

Please note that this graphic is from the testing site. This publication was made using the test site and a testing name for MA DEALER. With your own screen you will see your own information.

B. *Negative Reports*

Select Negative Reports off the Main Menu to create a new or delete an existing negative report.

To create a new negative report, select create and then select single day or range of days. A calendar prompt is available to enter in negative reports for a single day or for a range of days. See Screenshot 9: Negative Reports Page to see the layout for this page.

Screenshot 9: *Negative Reports* Page

C. *Incomplete Reports*

Incomplete Reports for the past 90 days are indicated on the *Main Menu*. The number of incomplete reports under 90 days old will appear in parenthesis next to this Main Menu option. A report is incomplete if it is missing the price, dollars or VTR# (for federal dealers).

By selecting Incomplete Reports you will be able to complete a report.

Only incomplete reports from the past 90 days are available. By selecting the 'ALL Incomplete Reports' button, you may see all, if any incomplete reports.

Screenshot 10: *Highlighting Incomplete Reports* Window

Screenshot 11: *ALL Incomplete Reports* Button

D. *Favorites*

Favorites (Screenshot 12: Favorites Page) allow you to enter a list of fishers, gears, and species that are frequently used in dealer reporting. Utilizing this feature will make the experience entering dealer reports much simpler and easier. Take time to set your favorites for faster dealer reporting.

Favorites from previous versions of the eDR will be available in the new eDR. Please take the time to review your list of Favorites.

Screenshot 12: *Favorites* Page [Frequent Fisher (1), Frequent Species (2) and Gears (3)]

Please note that this graphic is from the testing site. This publication was made using the test site and a testing name for MA DEALER. With your own screen you will see your own information.

The Favorites page is broken into three areas, Frequent Fishers, Favorite Gears, and Favorite Species.

Frequent Fishers

Frequent fishers are automatically generated as dealer reports are created. Fishers may be removed from the list. To delete a fisher, click on the box to the far left and then click the red 'Delete Fisher' button.

If you have a seasonal fisher and you wish to temporarily remove them from the list of frequent fishers, set the status = INACTIVE.

To search for a particular fisher, enter in fisher, license, port, or vessel number and then click the 'Go' button. This is illustrated in Screenshot 13: Frequent Fishers Window.

Screenshot 13: *Frequent Fishers* Window

Favorite Species.

To enter a favorite species, select a species from the Species Tree (Species Tree Window is illustrated on page 5) Once a species has been selected, please enter:

1. Default disposition of the species you have selected, and, optionally,
2. Enter in the order in which you wish to have that species appear on your report. A new feature of the latest version of eDR is that you can rearrange the order of the favorite species list.

If you would like to delete a species from the list, click on the box to the far left and then click the red 'Delete Species' button.

Certain species in various states may require additional information. For instance, in Massachusetts shellfish requires addition fields to be entered. Please contact your administrator (listed number on page 3) if you have trouble entering in required information for a species.

Screenshot 14: *Favorite Species* Window

Please note that this graphic is from the testing site. This publication was made using the test site and a testing name for MA DEALER. With your own screen you will see your own information.

Favorite Gears

Favorites Gears (Screenshot 15: The Gear Window) is a new feature of eDR. Click the ADD Gear Button to add a new gear. Click on the drop down arrow (circled in Screenshot 15: The Gear Window) and the list of gear will be appear. Screenshot 16: Scroll Down for the Gear Window illustrates how the chose a gear. The types of gear are listed in alphabetical order. If you do not see the type of gear you are looking for simply choose 'Not Coded' or contact your SAFIS partner administrator.

Screenshot 15: *Gear* Window

Screenshot 16: Scroll Down for the *Gears* Window

To delete a gear from the list click on the box to the far left and then click the red 'Delete Gear(s)' button.

Other Features in Favorites: The Favorites page also contains a window for hints on measurement abbreviation (Screenshot 17: Hints Window). Once you click on the link 'Click here to open/close'. The Units of Measure will appear as seen below as seen to the right.

To save favorites, click on the SAVE All or press F9.

SAVE All (F9)

pounds in shell	PS

My Species Tree

My species tree is another new feature of eDR (Screenshot 18: My Species Tree). Click the bright yellow button ('MY Species Tree') above the species tree to modify the favorite species tree. This feature allows for a personalized species tree. Species added to favorite species is automatically added to the favorite species tree, but you can also add other species to the list.

Delete	BLUEFISH	ROUND	LARGE	LB

MY SPECIES TREE

MY Species Tree allows you the ability to tailor the species tree to your needs. The species tree appears on the Dealer Reports page. The full species tree may take a few minutes (especially for dial-up users). Creating MY Species Tree should speed up the dealer reports page.

By creating MY Species Tree, the dealer reports page will show your species tree. An option will be provided to show the entire species tree.

E. *Price Board*

The price board is a new feature of the latest edition of eDR. You will be able to save the price for a species for 14 days. These prices will automatically appear when a dealer report is created. Additionally, a price can fill in incomplete reports. After 14 days you must re-enter prices within the price board.

There are three ways to enter information into the price board.

1. If frequent species exist (from your Favorites) they will automatically populate the price board upon first entry.
2. Species can be selected from the species tree on the left of the page.
3. If price board has been created but new species favorites have been added on the Favorites Page a button 'including favorite species' will appear in the top right. By selecting this button, all favorite species not previously included in the price board will be included.

There is an additional feature which will allow incomplete reports be filled in with a species price (where previously empty). When you click on the 'Apply Price Board to Landings' Button, incomplete landing reports that were previously entered between the start and end date of the price board will be filled in with the listed prices. Please be aware, his will not overwrite existing prices. This will only fill in price where landing was entered between start and end date.

To delete a price board option from the list click on the box to the far left and then clicks the white 'Delete Price Board Entry' button. Once you click the green 'Save Price Board' Button, an end date will appear in the 'End Date' column.

F. *Dealer Information*

Dealer Information allows you to review your address and permits stored in the database (Screenshot 20: *Dealer Information* Page). This information is provided by your SAFIS administrator. Please contact your SAFIS for any corrections or changes. To gain the most up-to-date news from your partner we suggest you maintain this to the best of your knowledge by contacting your SAFIS partner.

G. *Reports*

Reports are key to the eDR. We have provided a list of commonly used reports used by dealers. Please let your SAFIS partner administrator know if there are additional reports that you would like to see.

Date parameters will allow flexibility in creating a variety of reports. An interactive report will provide the ability to generate more tailored reports.

Interactive Reports is a new feature of SAFIS eDR. It will provide you with an ability to create your own tailored reports. There are quite a few features available with this powerful tool and we recommend that you spend time to see what features are right for you. Any report that you create can be saved and made available to you each time that you log into the SAFIS eDR application.

The interactive report queries the database for all dealer reports you have entered based upon the parameters you have entered. You can then tailor the output. The report is presented in two formats: Bar Chart or Report Format (see below for illustrations).

Bar Graph Format

Report Format

The following is the table which lists all of the possible report options. A graphic example of each type of report follows in Examples 1-10.

Screenshot 21: List of Reports

But, before we go through those examples it is good to know that if you click the 'Expand Here for Hints on How to Use the Interactive Reports' Button from the last reports menu item 'Interactive Reports All Landings and Dollars for [Username]' you will see a list of additional feedback on how to make this tool work for you (see below).

Screenshot 22: List of Report Hints

The hints are as described below:

> *"This is an interactive report. Dealers have control over the columns and rows they would like to have appear."*
>
> *"When this page is pulled up, ALL dealer reports entered by this dealer will appear. The user can filter the reports using the filter feature. To initiate the filter feature, press the icon that looks like a gear. Go to Filters."*
>
> *"The user will be able to select the Column, Operator and the Expression of the filter."*
>
> *"For example, if the report should be filtered by VESSEL_NAME and LANDING DATE between a period of time:*
> *set column = VESSEL_NAME (or scroll down to VESSEL_NAME)*
> *set operator = '='*
> *set expression to a vessel_name, or use the icon on the right of expression box to select a value from EXISTING record values."*
>
> *"To also filter by LANDING_DATE or any other field, repeat the above."*

Examples of available interactive reports (illustrated examples as follows in screenshots 23-32):

- Dealer Reports (*Example 1: Dealer Report*)
- Species Total Weight/Dollars by Purchase Month/Year (*Example 2: Species Total Weight)*
- Landings and Dollars by Vessel (*Example 3: Landings and Dollars By Vessel*)
- Landings and Dollars by License Holder (*Example 4: Landings and Dollars by License Holder*)
- Landings and Dollars by Species (*Example 5: Landing and dollars by Species*)
- Landing and Dollars by Species, Market, and Grade per Landing Date (*Example 6: Landings and Dollars by Species, Market, and Grade Category*)
- Landings and Dollars by Date Range (*Example 7: Landings and Dollars by Date Range*)
- Landings and Dollars by Area Fished (*only those species where area fished required) (Example 8: Landings and dollars by area fished*)
- Landings and Dollars by Fisher *(Example 9: Landings and Dollars by Fisher)*
- Incomplete Reports *(Example 10: Incomplete Reports)*
